Presentation Letter

Hello, my name is Milagros but everyone calls me Mili. I am 15 years old and I live with my parents and my sister Melina. I was born in Neuquén but I live in Tandil from the age of six, due to family reasons. I have two dogs, Princesa and Nina that I love so much. My best friends are Nicole, Brenda, Facundo and Jeronimo. I spend most of my time on my tasks as English, photography, theatre and aerobics' classes.

During my free time, I watch series and movies and I like reading books that inspired movies. I go walking with one of my best friends, I play with my dogs. I spend time with my family and we go to the farm to visit my uncles. If there is time, I go to visit my old sister or my grandmother. Other times, I join my friends and we go to see plays, to take an ice cream, to a restaurant or we go to some place where we can take some pictures.

At school, I study twelve subjects: literature, math, physical education, English, New Technologies of Information and Connectivity (NTICX), Health and adolescence, History, Biology, physics, geography, Accounting information system and organizational theory. Each class lasts one hour and my schedule is seven-thirty in the morning until thirteen hours, but when I have physical education I have to go extra time.

In a normal day I wake up, I have breakfast and I prepare myself and everything for school. My parents take me to the school by car and before entering the class, we sing a song to hoist the flag. We are in a class for an hour and then we have a playtime for 15 minutes. During the playtime, I join my friends that study in other courses, we spend some money at the kiosk and then we sit in the school yard. We have three recesses and I spend everyone with my friends to relax myself. When school ends, sometimes I have to stay in physical education but if not, I go back home walking or by bus. Home is about two kilometers away from school.

At school we cannot choose the subjects, they are compulsory for all the students. However, I do prefer some subjects like math, English and NTICX.

At home, I have a room for my own. It has a bed, a TV, a closet and a desk, which I use for study. Next to my room is my sister's room. There is a hall that connects each room with the bathroom (there are three bedrooms at home: mine, my sister's and my parents'). In the corridor is the dining room's door. The dining room is connected to the kitchen and the living room, where the main entrance is. The kitchen has a door that goes to the backyard, which has two more rooms. There is a garage where we save the car and other stuff.

My father is a military man and my mother is a nurse. Both are Warrant Officer I and work in the Argentinian Army.

The city where I live is Tandil, which is located in Buenos Aires Province's center within the Tandilia hills system. The city was founded by Brigadier General

Martin Rodriguez, Buenos Aires Province's Governor, in 1823, under the name of FuerteIndependencia. Tandil has a population of 110.627 inhabitants. In this city people plays a huge variety of sports.

One of the most developed industries in the city is metallurgical industry. Tandil counts with a variety of industrials establishments where are produced from agricultural equipment to auto parts. In addition is Cagnoli's Company, where salami is produced. Leather's industry, sausages, wool, any type of apparel and knives, maintains in boom the Tandilense's industry.

Tandil has the first salami's monument around the world. This monument, made of iron, toured the country before its installation to promote local sausages' production. In the Diagonal Arturo Illia of the ParqueIndependencia, is held during Holy Week, the Craftsmen Fair, where you can buy handicrafts from all over the country and the Flavors Fair where local food manufacturers show and sell their products.

Tandil's location in the sub region is called "sea and hills".The basis of Tandil's economy lies in the intensive agriculture of wheat, soybeans (since the mid-1970s), maize and sunflower, and in a lesser extent, oats, canary seed and flax. Livestock in Tandilis intensive: vaccine (mainly for milking), ovine and porcine. For this reason, there are more than one hundred and fifty dairies. Tandil has a large production of regional artisan products, such as cheeses, salamis, and other sausages, which are the most outstanding in the area.

My personal interests are theater and photographs, and my goal is to be a photographer. This activity interests me since I was 14 years old, because I like to capture the moments through a photo, to capture the landscapes in a photograph and also to see facial and physical expressions of people at the moment of taking the photo. I go to a photography course that lasts an hour twice a week and I also dedicate my free time taking photos.

Thanks to the opportunity that my parents gave me, I was able to know a big part of my country. I also went to Chile, Brazil, Paraguay, Uruguay, United States and Bahamas. One of the reasons I went to the United States and the Bahamas was for my trip of 15 years. I went for 20 days with the company's coordinators and other girls in my situation. I visited the other countries on vacation with my family, my parents and sisters, and sometimes with family friends, we usually went for two weeks.

What dislikes me is animals' death; I do not eat much meat, but sometimes I eat something. Also dislikes me closed-minded people, who do not accept the others and offend them.

My qualities are: I am good friend, I am faithful, companion, I am active, I try to occupy my time in activities, open-minded, positive, creative, critical, flexible, responsible, kind, determined, honest, attentive, sociable and conscious.

And my weaknesses are that I am impatient, nervous and reserved to tell private things.

Parents' Letter

Mili, our daughter, is a teenager of 15 years old. She is very joyful, kind, helpful and above all, charismatic. She likes to share with friends, she does not have problems to interact with people and she knows how to adapt herself to any situation and environment. She is a good person with her family; she tries to link her siblings, she gets along well with everyone, as we are an assembled family, she is not jealous of any of them. She has four brothers, Matías (30), David (28), Emanuel (25) and Luciano (24). Except for Emanuel, the others are married and they live in southern Argentina, in a city called San Martín de los Andes, and she has two sisters: Marite (23), who lives in Mar del Plata where she studies at the Universidad Nacional de Mar del Plata, and Melina (22), who lives with us, works and studies. Mili also has a niece, Matías' daughter, who is called Valentina (6) for whom she has much affection, although they do not see each other assiduously, because Valentina lives in the south of Argentina.

As we said before, Mili is easy to make friends because she is endearing. She has a lot of friends: at school, at her theater course and other activities.

When she has any problem or frustration, our role is to support her by talking or making her to see things from another point of view, which we consider is better. We try to lift her mood and self-esteem, if necessary. We have not had problematic or difficult situations with Mili.

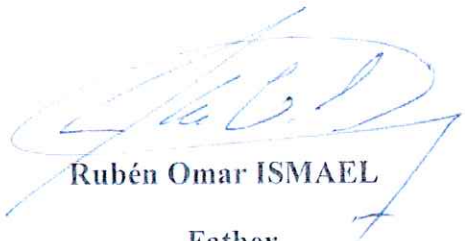

The independence we give Mili is for her to attend the activities she likes. She can go out with her friends to a café or to a meeting in a partner's house, always picking her up and knowing where she goes and with whom. We feel that Mili is a responsible girl, serious when she has to be and fun at the right time.

We are proud of Mili because of her charisma and her love for her neighbor. We also feel that when she proposes something, she does everything to achieve it, for example this Exchange, because she was the one who looked for it, proposed it and hopes to get it.

At school, she is a good and responsible student. We do not need to be on her in order she performs her tasks.

Applicant Name: Milagros Rosa Celine ISMAEL

We would like her to participate in an exchange program because she wants it and because we believe it would be great opportunity for her to know other cultures and ways of living. Additionally, it would be good if she can compare her country to another, either because it is better or smaller than ours. By the way, we would be delighted to share comments with the host family.

Rubén Omar ISMAEL

Father

Mirta Noemí CARRASCO

Mother

My plan after finishing high school is study at university. I have not decided yet but I have some ideas, such as Technical Engineering in Computer Systems or Mathematics teacher. I like these professions because I have a great interest in mathematics. Other plan is to finish the English language school and I would like to take cooking and computer courses.

With this exchange I hope I could know myself better, ripen, change for the better, meet people from other countries, discover new cultures, learn new things and travel, which is what I love the most.
